Top Skills

Linux
SQL
JUnit

Languages

Marwari (Limited Working)
English (Full Professional)
Hindi (Native or Bilingual)

Certifications

System Validation: Automata and behavioural equivalences
Python for Data Science and AI
Databases and SQL for Data Science
Data Science Methodology
Introduction to HTML5

Honors-Awards

Scholarship from GV School Development Programme
Member of HEARTS-VIT Club
Coordinator

Aditya Firoda

ISB Co'27 | Oracle | Akamai | VIT 2020
Tamil Nadu, India

Summary

Highly skilled Senior Software Developer with over 4 years of hands-on experience in backend development within product-based companies. Proficient in Java Core, Spring Boot, Microservices Architecture, and REST API, adept at optimizing performance and troubleshooting large-scale production systems deployed on AWS Cloud EC2 instances.

Experience

Oracle

Senior Member of Technical Staff
April 2024 - April 2026 (2 years 1 month)
Bengaluru, Karnataka, India

- Architected a novel microservice, an external OAuth proxy, facilitating secure communication between healthcare providers (e.g., UK NHS) and Oracle services, processing over 1 million requests daily and impacting millions of medical professionals.
- Implemented comprehensive support for tracking and managing board devices utilized in hospital operating rooms, streamlining device management for over 50 hospitals and reducing operational overhead by 15%.
- Patched critical vulnerabilities and improved security by updating outdated libraries across cloud IAM assets.
- Resolved complex defects, addressed Corrective and Preventive Actions (CAPA) items, and deployed highly scalable services.

Mettl

2 years 7 months
Senior Software Engineer
March 2023 - March 2024 (1 year 1 month)
Gurugram, Haryana, India

Software Developer

September 2021 - March 2023 (1 year 7 months)

Gurugram, Haryana, India

Designed and implemented Mpaas Gateway, which acted as a single gateway for the proctoring microservices stack. Implemented spring reactive features and supported multiple authentication mechanisms. Created rate limiting and improved debugging of issues saving 87.5% developer hours.

- Conceptualized and performed POC for migration of our message queues from ActiveMQ to Amazon SQS which had potential profit increase of approximately 14.5 million Rs due to reduced infrastructure costs.
- Created and designed DEMO page for mpaas which was used by more than 200 clients and internal sales /marketing team to review proctoring features. Clients such as: Accenture, Barclays, Airtel, IIM-B etc.
- Worked on improving existing reports generated for test takers in Mettl. New reports UI tracked individuals' events such as time of camera stop working, net disconnection, retries by candidate. Which helped in better assessment of candidate by proctors. Improved interaction per visit by 18 percent and avg session time by 20% which led to better analysis of candidate by proctor.
- Worked with intern on migrating a proctoring UI service from spring to spring boot legacy upgrade saving up to 33% of development time needed to create new functionality by providing annotations, so developers can focus on business logic.
- Worked with Qmark Client, created a single sign on authentication mechanism for mpaas website, with client based and IP based whitelisting, automated the entire new sub-user creation process from 14000 per 1000 user to avg ~3-4 seconds using a single API saving time for onboarding sub-users.
- Developed analytics excel dashboard for proctoring usages by 300+ clients and overall usages for internal finance teams. Partnered with stakeholders to ensure correctness and efficient delivery of mission critical data.
- Performed time sensitive relational database upgrade and optimized queries which were impacted due to major version upgrade of Aurora PostgreSQL.

Kherwadi Social Welfare Association

Volunteer Staff

July 2023 - July 2023 (1 month)

Delhi, India

Shiksha Bharti School

Volunteer Staff

April 2022 - May 2022 (2 months)

Delhi, India

Summer Homework Sheet For Children of Shiksha Bharti School

- > Worked with the faculty of this small public school to create fun engaging homework for students of Class IV
- > This homework was given to students as a part of their summer homework sheet and to help ease the load of already strained teachers of Shiksha Bharti School.

iVolunteer

Volunteer

April 2022 - April 2022 (1 month)

Delhi, India

Help me Grow with MS office - iVolunteer

- > Taught basics of Microsoft office word, powerpoint and excel to social workers who help form social communities for underprivileged women of society.
- > Understood the requirements of social workers and shared tips and techniques to better manage their workbooks in excels. Shared ways to make better powerpoint presentations which they use for their donation campaigns.

Akamai Technologies

Technical Solutions Engineer Associate

July 2020 - August 2021 (1 year 2 months)

Bengaluru, Karnataka, India

- Designed log analysis script which reduced the effort spent by engineers on rebuffering issues.
- Exhibited in-depth technical understanding of DNS and HTTP protocols.
- Developed an understanding of how to work on highly technical and mission-critical issues reported by clients across the globe such as widespread issues related to multimedia content delivery.

Defense Research and Development Laboratory

SDE Intern

December 2019 - May 2020 (6 months)

Jodhpur, Rajasthan, India

- Developed the Eigen Value-based Dominant Color Extraction Technique, a significant improvement from KNN.
- Used Retina-net Architecture to create a CNN model, which was trained on Google Open Image Dataset.

- Engineered model detected the armored vehicles in context with a high degree of confidence

Defence Research and Development Organisation (DRDO)

Software Development Trainee

May 2018 - June 2018 (2 months)

Jodhpur Area, India

- Designed a desktop-based application using ArcGIS which lead to reduction in overall costs of operation for the teams by 30%
- Built application aided in loading multiple layers with different features with the option for the user to click and get detailed information about the features with simple queries.
- The application also assisted with providing location details in different formats with the option to rotate, and capture a region with pinch to zoom as per user requirements.

Education

Indian School of Business

Postgraduate Degree, Business Administration and Management,

General · (April 2026 - March 2027)

Vellore Institute of Technology

B.Tech, Computer Science · (2016 - 2020)
